

DECLARATION

I declare that, regarding legal aspects, the research to be carried out by me can only be started after the necessary authorizations, when there is:

- Animal experimentation:

I am aware that if my research project involves animal experimentation, I must observe the Animal Research: Reporting In Vivo Experiments (ARRIVE) guidelines for reporting animal studies and submit my research project for ethical consideration to the Animal Use Ethics Commission and only start the study after approval.

(include full name)

(The Declaration must be signed by all authors of the manuscript).
